### Applying the Bible to Business

In this chapter on Entrepreneurship, the class will explore the different aspects of business ownership. Business owners need wisdom and knowledge to have a thriving business. For example, Entrepreneurs need to know their competition, understand business law, know HR issues, apply leadership, and many more topics. Scripture states, “The one who gets wisdom loves life; the one who cherishes understanding will soon prosper” Proverbs 19:8. This scripture challenges us to be intentional about gaining wisdom and understanding to set a trajectory of success in the vocation of business.
