

4.6: Conclusion

Work attitudes are our feelings toward our company and job. Job satisfaction and organizational commitment are related to many outcomes of interest, such as absenteeism, performance, and turnover. Therefore, companies track feelings toward work and try to create more positive attitudes. The main behaviors that contribute to organizational effectiveness are job performance, citizenship behaviors, absenteeism, and turnover. These behaviors are affected by a complex blend of personality and situational factors, and factors affecting these behaviors and work attitudes will be examined in more detail in other chapters of this book.
