

17.4: Course Resources Overview

We've seen overwhelming demand for high quality, openly-licensed course materials, including supplemental resources to enrich teaching and learning and to make life easier for instructors. To support this need, we've developed and curated faculty resources to use with this course.

Free and Open Supplemental Materials

On the following pages, you will find supplemental resources that are freely available to use with the interactive learning materials for this course. Since these resources are openly licensed, you may use them as is or adapt them to your needs.

Additional Faculty Resources

Additional supplemental resources, learning tools, and support services are available to faculty who adopt Waymaker, OHM, or Candela courses with paid support from Lumen Learning. For many courses, these include some combination of summative assessments, answer keys, solutions manuals, or other materials shared only with authorized instructors in order to protect academic integrity.

Click here to [learn more about additional instructor tools](#) and resources available to faculty who adopt Lumen-supported courseware. [Information about pricing and payment options is available on this page](#). Lumen's low-cost support fees replace the cost of expensive textbooks and may be paid by students or by the institution directly.

Continuously Improving Learning Materials

Are you interested in collaborating with us to make these course materials better? We use learning data to identify where content improvements are needed, and then we invite faculty and subject matter experts to work with us developing continuous improvements aimed at increasing learning.
