

3.9: Discussion- Multi-Channel Retailing

Part 1

Your task is to write a short paragraph (no more than 300 words) explaining the business plan structure of several non-store retailers. Please explain how the aspect of supply channels change with various store settings. Your textbook discusses several model types.

Part 2

For each discussion forum, students need to create an initial post, then look over the discussion posts of your other classmates and give at least two (2) thoughtful responses to two (2) different classmates (one per classmate), totaling a minimum of three (3) posts for forum, including your initial post.

You need to write more than just a few words like: "I agree" or "Sounds good" or "Well said." You must write several sentences that are thoughtful and suitable for a proper discussion. It is also fitting to ask questions or politely challenge your classmates if you like. When in doubt, just remember: this is a "discussion," not a series of opinion blogs.
