Preface

1: Introductory Finance Issues- Current Patterns, Past History, and International Institutions

- 1.1: The International Economy and International Economics
- 1.2: GDP, Unemployment, Inflation, and Government Budget Balances
- 1.3: Exchange Rate Regimes, Trade Balances, and Investment Positions
- 1.4: Business Cycles- Economic Ups and Downs
- 1.5: International Macroeconomic Institutions- The IMF and the World Bank

2: National Income and the Balance of Payments Accounts

- 2.1: National Income and Product Accounts
- 2.2: National Income or Product Identity
- 2.3: U.S. National Income Statistics (2007–2008)
- 2.4: Balance of Payments Accounts- Definitions
- 2.5: Recording Transactions on the Balance of Payments
- 2.6: U.S. Balance of Payments Statistics (2008)
- 2.7: The Twin-Deficit Identity
- 2.8: International Investment Position

3: The Whole Truth about Trade Imbalances

- 3.1: Overview of Trade Imbalances
- 3.2: Trade Imbalances and Jobs
- 3.3: The National Welfare Effects of Trade Imbalances
- 3.4: Some Further Complications
- 3.5: How to Evaluate Trade Imbalances

4: Foreign Exchange Markets and Rates of Return

- 4.1: The Forex- Participants and Objectives
- 4.2: Exchange Rate- Definitions
- 4.3: Calculating Rate of Returns on International Investments
- 4.4: Interpretation of the Rate of Return Formula
- 4.5: Applying the Rate of Return Formulas

5: Interest Rate Parity

- 5.1: Overview of Interest Rate Parity
- 5.2: Comparative Statics in the IRP Theory
- 5.3: Forex Equilibrium with the Rate of Return Diagram
- 5.4: Exchange Rate Equilibrium Stories with the RoR Diagram
- 5.5: Exchange Rate Effects of Changes in U.S. Interest Rates Using the RoR Diagram
- 5.6: Exchange Rate Effects of Changes in Foreign Interest Rates Using the RoR Diagram
- 5.7: Exchange Rate Effects of Changes in the Expected Exchange Rate Using the RoR Diagram

6: Purchasing Power Parity

- 6.1: Overview of Purchasing Power Parity (PPP)
- 6.2: The Consumer Price Index (CPI) and PPP
- 6.3: PPP as a Theory of Exchange Rate Determination
- 6.4: Problems and Extensions of PPP
- 6.5: PPP in the Long Run
- 6.6: Overvaluation and Undervaluation
- 6.7: PPP and Cross-Country Comparisons

7: Interest Rate Determination

- 7.1: Overview of Interest Rate Determination
- 7.2: Some Preliminaries
- 7.3: What Is Money?
- 7.4: Money Supply Measures
- 7.5: Controlling the Money Supply
- 7.6: Money Demand
- 7.7: Money Functions and Equilibrium
- 7.8: Money Market Equilibrium Stories
- 7.9: Effects of a Money Supply Increase
- 7.10: Effect of a Price Level Increase (Inflation) on Interest Rates
- 7.11: Effect of a Real GDP Increase (Economic Growth) on Interest Rates
- 7.12: Integrating the Money Market and the Foreign Exchange Markets
- 7.13: Comparative Statics in the Combined Money-Forex Model
- 7.14: Money Supply and Long-Run Prices

8: National Output Determination

- 8.1: Overview of National Output Determination
- 8.2: Aggregate Demand for Goods and Services
- 8.3: Consumption Demand
- 8.4: Investment Demand
- 8.5: Government Demand
- 8.6: Export and Import Demand
- 8.7: The Aggregate Demand Function
- 8.8: The Keynesian Cross Diagram
- 8.9: Goods and Services Market Equilibrium Stories
- 8.10: Effect of an Increase in Government Demand on Real GNP
- 8.11: Effect of an Increase in the U.S. Dollar Value on Real GNP
- 8.12: The J-Curve Effect

9: Central Bank Form and Function

- 9.1: America's Central Banks
- 9.2: The Federal Reserve System's Structure
- 9.3: Other Important Central Banks
- 9.4: Central Bank Independence
- 9.5: Suggested Reading

10: Inflation and Money

- 10.1: Empirical Evidence of a Money-Inflation Link
- 10.2: Why Have Central Bankers So Often Gotten It Wrong?
- 10.3: Suggested Reading

11: The AA-DD Model

- 11.1: Overview of the AA-DD Model
- 11.2: Derivation of the DD Curve
- 11.3: Shifting the DD Curve
- 11.4: Derivation of the AA Curve
- 11.5: Shifting the AA Curve
- 11.6: Superequilibrium- Combining DD and AA
- 11.7: Adjustment to the Superequilibrium
- 11.8: AA-DD and the Current Account Balance

12: Policy Effects with Floating Exchange Rates

- 12.1: Overview of Policy with Floating Exchange Rates
- 12.2: Monetary Policy with Floating Exchange Rates
- 12.3: Fiscal Policy with Floating Exchange Rates
- 12.4: Expansionary Monetary Policy with Floating Exchange Rates in the Long Run
- 12.5: Foreign Exchange Interventions with Floating Exchange Rates

13: Fixed Exchange Rates

- 13.1: Overview of Fixed Exchange Rates
- 13.2: Fixed Exchange Rate Systems
- 13.3: Interest Rate Parity with Fixed Exchange Rates
- 13.4: Central Bank Intervention with Fixed Exchange Rates
- 13.5: Balance of Payments Deficits and Surpluses
- 13.6: Black Markets

14: Policy Effects with Fixed Exchange Rates

- 14.1: Overview of Policy with Fixed Exchange Rates
- 14.2: Monetary Policy with Fixed Exchange Rates
- 14.3: Fiscal Policy with Fixed Exchange Rates
- 14.4: Exchange Rate Policy with Fixed Exchange Rates
- 14.5: Reserve Country Monetary Policy under Fixed Exchange Rates
- 14.6: Currency Crises and Capital Flight
- 14.7: Case Study - The Breakup of the Bretton Woods System, 1973

15: Fixed versus Floating Exchange Rates

- 15.1: Overview of Fixed versus Floating Exchange Rates
- 15.2: Exchange Rate Volatility and Risk
- 15.3: Inflationary Consequences of Exchange Rate Systems
- 15.4: Monetary Autonomy and Exchange Rate Systems
- 15.5: Which Is Better- Fixed or Floating Exchange Rates?
