

The Future is OPEN

BPM 1010: Residential Property Management

BPM 1010: RESIDENTIAL PROPERTY MANAGEMENT

This text is designed to prepare students to manage multi-family properties. The management of rental property is emphasized, but common interest realty associations and other residential property (manufactured and senior housing and single family homes) are also covered. Topics include forms and goals of ownership; leasing; human resource management; property operations; resident policies; marketing, budgeting and planning; legal and risk management; and government regulations.
