

CHAPTER OVERVIEW

6: The Distribution of Gas Velocities

- 6.1: Distribution Functions for Gas-velocity Components
- 6.2: Probability Density Functions for Velocity Components in Spherical Coordinates
- 6.3: Maxwell's Derivation of the Gas-velocity Probability-density Function
- 6.4: The Probability-density Function for Gas Velocities in One Dimension
- 6.5: Combining the One-dimensional Probability Density Functions
- 6.6: Boyle's Law from the Maxwell-Boltzmann Probability Density
- 6.7: Experimental Test of the Maxwell-Boltzmann Probability Density
- 6.8: Statistics for Molecular Speeds
- 6.9: Pressure Variations for Macroscopic Samples
- 6.10: Collisions between Gas Molecules Relative Velocity Coordinates
- 6.11: The Probability Density Function for the Relative Velocity
- 6.12: The Frequency of Collisions between Unlike Gas Molecules
- 6.13: The Rate of Collisions between Unlike Gas Molecules
- 6.14: Collisions between like Gas Molecules
- 6.15: The Geometry of A Collision between Spherical Molecules
- 6.16: The Energy of A Collision between Gas Molecules
- 6.17: Problems
