

The Future is OPEN

NON-ISOTHERMAL KINETIC METHODS

Non-isothermal Kinetic Methods

This application book is intended for senior students of natural science faculties and technical institutes, who use methods of thermal analysis for kinetic studies in their research. The book can help researchers in studies of thermal decomposition, oxidation of various substances and materials, and other similar processes. It can be used in the laboratories of industrial enterprises applying methods of thermal analysis for quality control of raw materials and final products.
