

19.1 The Common Ion Effect (Video)

This project was preformed to supply **Libretext authors** with videos on General Chemistry topics which can be used to enhance their projects. Also, these videos are meant to act as a learning resource for **all General Chemistry students**.

Video Topics

Adding the salt of the conjugate base to a solution of a weak acid decreases the $\{H_3O^+\}$. The video contains a sample problem where the pH of a weak acid is calculated with and without the presence of its conjugate base.
