

## 18.11 Ions as Acids and Bases (Video)

This project was preformed to supply **Libretext authors** with videos on General Chemistry topics which can be used to enhance their projects. Also, these videos are meant to act as a learning resource for **all General Chemistry students**.

### Video Topics

This video discusses how to calculate the pH of a solution contains the conjugate of a weak acid or the conjugate acid of a weak base.

The salts of a group one metals and the conjugate base of a weak acid are basic

Chloride and bromide salts of the conjugate acid of a weak base are acidic.
