

## Chapter 5.4 Calculations Involving Dilution (Video)

This project was preformed to supply **Libretext Authors** with videos on General Chemistry topics which can be used to enhance their projects. Also, these videos are meant to act as a learning resource for **all General Chemistry students**.

### Video Topics

Dilution is the process of decreasing a solution's concentration by adding more solvent. Dilution calculation allow for the new molarity of a solution to be calculated at the addition of solvent.
