

CHAPTER OVERVIEW

4: Reagents and Reaction Mechanisms

4.1: Polar Reactions

4.1.1: Substitution Mechanisms

4.1.2: Elimination Mechanisms

4.2: Radical Reactions

4.3: Reactive Species

4.3.1: Carbocation Structure and Stability

4.3.2: Carbanions II

4.3.3: Carbenes

4.3.4: Free Radicals

4.3.5: Nucleophiles

4.3.6: Electrophiles

4.4: Bond Breaking and Bond Formation

4.4.1: Transition States

4.4.2: Reactive Intermediates
