

## CHAPTER OVERVIEW

### 1: Introduction to Organic Spectroscopy

- 1.1: Chapter Objectives and Preview of Spectroscopy
- 1.2: The Nature of Radiant Energy and Electromagnetic Radiation
- 1.3: Introduction to Molecular Spectroscopy
- 1.4: Time-resolved vs. Frequency Resolved
- 1.5: The Power of the Fourier Transform for Spectroscopists
- 1.6: Upcoming Spectroscopy Techniques
- 1.S Summary of Organic Spectroscopy
