

Index

A

acid

1.6.5: Acids

Acid–Base Titration

1.11.8: Acid–Base Titration

acids

1.6.5: Acids

activity series

1.7.4: Types of Chemical Reactions - Single and Double Replacement Reactions

alpha decay

1.5.1: Radioactivity

anion

1.4.4: Ions - Losing and Gaining Electrons

atomic mass unit

1.4.2.1: The Properties of Protons, Neutrons, and Electrons

1.7.1: The Mole

atomic mass units

1.7.1: The Mole

avogadros number

1.7.1: The Mole

B

balanced chemical equation

1.7.5.1: Mole-Mass and Mass-Mass Calculations

Balancing a Chemical Equation

1.7.3: How to Write Balanced Chemical Equations

Becquerel

1.5.4: Units of Radioactivity

beta decay

1.5.1: Radioactivity

boiling point elevation

1.9.8: Freezing Point Depression and Boiling Point Elevation

C

cation

1.4.4: Ions - Losing and Gaining Electrons

charge balance

1.6.1: Ions

chemical elements

1.4.5: Electronic Structure and the Periodic Table

chemical equation

1.7.5: The Mole in Chemical Reactions

1.7.5.1: Mole-Mass and Mass-Mass Calculations

Chemical Reactions

1.7.4.3: Ionic Equations - A Closer Look

1.7.5: The Mole in Chemical Reactions

Coefficients and Subscripts

1.7.3: How to Write Balanced Chemical Equations

colligative properties

1.9.8: Freezing Point Depression and Boiling Point Elevation

collision theory

1.10.1: The Rate of a Chemical Reaction

Combustion Reaction

1.7.4.1: Composition, Decomposition, and Combustion Reactions

Combustion Reactions

1.7.4.1: Composition, Decomposition, and Combustion Reactions

common system

1.6.3: Ionic Nomenclature

complete ionic equation

1.7.4.3: Ionic Equations - A Closer Look

composition

1.7.4.1: Composition, Decomposition, and Combustion Reactions

composition reaction

1.7.4.1: Composition, Decomposition, and Combustion Reactions

concentration

1.9.7.1: Concentrations as Conversion Factors

concentration units

1.9.7.1: Concentrations as Conversion Factors

conversion factor

1.7.1: The Mole

conversion factors

1.7.5: The Mole in Chemical Reactions

1.9.7.1: Concentrations as Conversion Factors

curie (unit)

1.5.4: Units of Radioactivity

D

d block

1.4.5: Electronic Structure and the Periodic Table

decomposition

1.7.4.1: Composition, Decomposition, and Combustion Reactions

Decomposition reaction

1.7.4.1: Composition, Decomposition, and Combustion Reactions

dissociate

1.7.4.3: Ionic Equations - A Closer Look

dissociation

1.7.4.3: Ionic Equations - A Closer Look

E

electron

1.4.2.1: The Properties of Protons, Neutrons, and Electrons

electron configurations

1.4.5: Electronic Structure and the Periodic Table

Electronic Structure

1.4.5: Electronic Structure and the Periodic Table

F

f block

1.4.5: Electronic Structure and the Periodic Table

fission

1.5.1: Radioactivity

freezing point depression

1.9.8: Freezing Point Depression and Boiling Point Elevation

G

gamma emission

1.5.1: Radioactivity

gas

1.8.1: Kinetic Theory of Gases

Gases

1.8.1: Kinetic Theory of Gases

H

half life

1.5.3: Half-Life

Heat capacity

1.3.4.2: Heat Capacity and Specific Heat

Heat Capacity Calculations

1.3.5: Energy and Heat Capacity Calculations

hydrolysis

1.11.7: Reactions of Acids and Bases

hypothesis

1.1.2: Hypothesis, Theories, and Laws

I

ideal gas

1.8.1: Kinetic Theory of Gases

ionic compounds

1.7.4.3: Ionic Equations - A Closer Look

Ionic Equations

1.7.4.3: Ionic Equations - A Closer Look

Ionic Nomenclature

1.6.3: Ionic Nomenclature

ions

1.4.4: Ions - Losing and Gaining Electrons

isotopes

1.4.2.2: Isotopes - When the Number of Neutrons Varies

K

kinetic theory

1.8.1: Kinetic Theory of Gases

kinetic theory of gases

1.8.1: Kinetic Theory of Gases

L

law

1.1.2: Hypothesis, Theories, and Laws

M

mass

1.7.1: The Mole

mol

1.7.5: The Mole in Chemical Reactions

molar masses

1.7.1: The Mole

mole

1.7.1: The Mole

1.7.5: The Mole in Chemical Reactions

monatomic anions

1.6.3: Ionic Nomenclature

N

neutralization reaction

1.11.7: Reactions of Acids and Bases

neutron

1.4.2.1: The Properties of Protons, Neutrons, and Electrons

O

osmosis

1.9.8.1: Osmosis

P

p block

1.4.5: Electronic Structure and the Periodic Table

periodic table

1.4.5: Electronic Structure and the Periodic Table

PET scan

1.5.5: Uses of Radioactive Isotopes

precipitate
