

Index

A

alpha decay

[3.3: Alpha Decay](#)

Angular momentum

[4.2: Quantum Mechanics in 3D - Angular momentum](#)

B

Beta decay

[1.3: Radioactive decay](#)

binding energy

[1.2: Binding energy and Semi-empirical mass formula](#)

D

daughter nuclide

[1.3: Radioactive decay](#)

decoherence

[2.3: Measurement and Probability](#)

deuteron

[5.2: The Deuteron](#)

differential cross section

[8.1: Interaction of Radiation with Matter](#)

Dirac equation

[2.2: States, Observables and Eigenvalues](#)

dispersion relation

[6.2: Evolution of Wave-packets](#)

doubly differential cross section

[8.1: Interaction of Radiation with Matter](#)

E

Ehrenfest's theorem

[6.3: Evolution of Operators and Expectation Values](#)

evanescent transmitted wave

[3.2: Unbound Problems in Quantum Mechanics](#)

expectation value

[2.3: Measurement and Probability](#)

F

Fermi's Golden Rule

[6.4: Fermi's Golden Rule](#)

G

Gamma decay

[1.3: Radioactive decay](#)

gamma ray

[7.1: Gamma Decay](#)

Gamow factor

[3.3: Alpha Decay](#)

H

Hamiltonian

[2.4: Energy Eigenvalue Problem](#)

Heisenberg picture

[6.3: Evolution of Operators and Expectation Values](#)

I

internal conversion

[7.1: Gamma Decay](#)

isotopes

[1.1: Basic Concepts](#)

L

lepton number

[7.2: Beta Decay](#)

M

Multipole Expansion

[7.1: Gamma Decay](#)

Multipoles

[7.1: Gamma Decay](#)

N

neutrino

[1.3: Radioactive decay](#)

[7.2: Beta Decay](#)

neutron scattering

[8.1: Interaction of Radiation with Matter](#)

nuclear force

[5.1: Characteristics of the Nuclear Force](#)

P

parent nuclide

[1.3: Radioactive decay](#)

Particle in Box

[4.1: Bound Problems](#)

probability density

[2.3: Measurement and Probability](#)

propagator

[6.1: Time-dependent Schrödinger Equation](#)

Q

quantum numbers

[4.1: Bound Problems](#)

S

shell model

[1.2: Binding energy and Semi-empirical mass formula](#)

sinc function

[6.4: Fermi's Golden Rule](#)

V

vector potential

[7.1: Gamma Decay](#)

W

wavefunction collapse

[2.3: Measurement and Probability](#)
