

## Acknowledgments

---

For their continued support, my family and friends. For their input on draft versions, my colleagues and students. For *continued sanity enhancement*, musicians and composers to numerous to mention. For *unintentional diversionary humor elicitation*, Wally and pals (again).

Finally, a serious *thank you, thank you, thank you* to all of the people who have created useful software and other OER tools without which this project would have been impossible. When we each do a little, we all gain a lot. This text was created using free and open software applications including [Open Office](#). Screen imagery was often manipulated though the use of [XnView](#).
