

CHAPTER OVERVIEW

22: Resonant Nonlinear Oscillations

22.1: Introduction to Resonant Nonlinear Oscillations

22.2: Frequency of Oscillation of a Particle is a Slightly Anharmonic Potential

22.3: Resonance in a Damped Driven Linear Oscillator- A Brief Review

22.4: Damped Driven Nonlinear Oscillator- Qualitative Discussion

22.5: Nonlinear Case - Landau's Analysis

22.6: Frequency Multiples
