

Index

A

abelian

[2.1: Groups](#)

E

Euler angles

[5.1: From Triads and Euler Angles to Spinors - A Heuristic Introduction](#)

H

hyperbolic rotations

[3.3: On Circular and Hyperbolic Rotations](#)

hypercomplex numbers

[3.4: The Pauli Algebra](#)

L

Lorentz force

[4.1: Lorentz transformation and Lorentz force](#)

Lorentz invariance

[6.2: Lorentz Invariance and Bilateral Multiplication](#)

Lorentz transformation

[4.1: Lorentz transformation and Lorentz force](#)

O

order of the group

[2.1: Groups](#)

Q

quaternions

[3.4: The Pauli Algebra](#)

[5.1: From Triads and Euler Angles to Spinors - A Heuristic Introduction](#)

S

spinors

[5.1: From Triads and Euler Angles to Spinors - A Heuristic Introduction](#)

T

triads

[5.1: From Triads and Euler Angles to Spinors - A Heuristic Introduction](#)
