

Index

A

annihilation operators

[8.2: Creation and Annihilation Operators](#)

B

Bloch sphere

[3: Schrödinger and Heisenberg Pictures](#)

Born rule

[4.3: Imperfect Measurements](#)

C

coherence

[4.2: Decoherence](#)

Copenhagen interpretation

[2: The Postulates of Quantum Mechanics](#)

Coulomb integral

[9.1: Interacting Electrons in Atomic Shells](#)

creation operators

[8.2: Creation and Annihilation Operators](#)

D

de Broglie wavelength

[13.3: Free Particles and the de Broglie Wavelength](#)

decoherence

[4.2: Decoherence](#)

dephasing

[4.2: Decoherence](#)

E

entanglement

[5.2: Entanglement](#)

exchange integral

[9.1: Interacting Electrons in Atomic Shells](#)

expectation value

[11.3.2: Uncertainty in Quantum Mechanics](#)

F

ferromagnet

[9.2 Spin Waves in Solids](#)

Fock space

[8.2: Creation and Annihilation Operators](#)

free particle

[13.3: Free Particles and the de Broglie Wavelength](#)

H

Heisenberg picture

[3: Schrödinger and Heisenberg Pictures](#)

Higgs bosons

[9.4: Outlook: Quantum Field Theory](#)

I

indistinguishability

[8.1: Symmetric and Anti-symmetric States](#)

inner product

[6.3: Bra Vectors and the Inner Product](#)

K

Kraus' Representation Theorem

[6.2: Positive and Completely Positive Maps](#)

L

Ladder operators

[8.2: Creation and Annihilation Operators](#)

Lindblad equation

[6.1: The Lindblad Equation](#)

M

Many Worlds interpretation

[2: The Postulates of Quantum Mechanics](#)

measurement problem

[2: The Postulates of Quantum Mechanics](#)

mixed states

[4.1: Mixed States](#)

N

noise

[4.3: Imperfect Measurements](#)

O

orbital angular momentum

[7.1: Orbital Angular Momentum](#)

orthogonality

[6.4: Normalization and Orthogonality](#)

P

Pauli matrices

[7.2: Spin](#)

Pauli spin matrices

[10.1: Spin Operators](#)

Plane waves

[13.3: Free Particles and the de Broglie Wavelength](#)

Projection Operator

[1.4: Projection Operators and Tensor Products](#)

Q

quantum field theory

[9.4: Outlook: Quantum Field Theory](#)

R

rotating wave approximation

[9.3: An Atom in a Cavity](#)

S

Schrödinger picture

[3: Schrödinger and Heisenberg Pictures](#)

second quantization

[8.2: Creation and Annihilation Operators](#)

Slater determinant

[8.1: Symmetric and Anti-symmetric States](#)

spin

[7.2: Spin](#)

spin angular momentum

[7.2: Spin](#)

spin expectation values

[10.2: Expectation Values](#)

spin operators

[10.1: Spin Operators](#)

Spin waves

[9.2 Spin Waves in Solids](#)

T

tensor product

[1.4: Projection Operators and Tensor Products](#)

trace

[1.5: The Trace and Determinant of an Operator](#)

V

Von Neumann equation

[4.1: Mixed States](#)

W

wavefunction collapse

[2: The Postulates of Quantum Mechanics](#)
