

Index

A

aberration

[1.4: Real and Apparent Depth](#)

angle of minimum deviation

[1.6: Refraction by a Prism](#)

Astigmatism

[4.3: Astigmatism](#)

B

barrel distortion

[4.6: Distortion](#)

C

coma (optics)

[4.4: Coma](#)

comatic circle

[4.4: Coma](#)

Convergence (Optics)

[2.4: Convergence](#)

Curvature of Field

[4.5: Curvature of Field](#)

D

distortion

[4.6: Distortion](#)

F

field lens

[3.6: The Microscope](#)

H

Huygens's principle

[1.3: Refraction at a Plane Surface](#)

I

impact parameter

[1.7: The Rainbow](#)

L

law of reflection

[1.2: Reflection at a Plane Surface](#)

linear lateral magnification

[2.6: Magnification](#)

linear transverse magnification

[2.6: Magnification](#)

M

Magnification

[2.6: Magnification](#)

[2.9: Derivation of Magnification](#)

microscope

[3.6: The Microscope](#)

O

objective lens

[3.6: The Microscope](#)

P

paraxial approximation

[2.2: Limitations](#)

Petzval surface

[4.5: Curvature of Field](#)

prism

[1.6: Refraction by a Prism](#)

R

rainbow

[1.7: The Rainbow](#)

reflection

[1: Reflection and Refraction](#)

refraction

[1: Reflection and Refraction](#)

Refractive index

[1.3: Refraction at a Plane Surface](#)

S

shape factor

[4.2: Spherical Aberration](#)

Snell's law of refraction

[1.3: Refraction at a Plane Surface](#)

[1.4: Real and Apparent Depth](#)

[1.8: Differential Form of Snell's Law](#)

specular reflection

[1.2: Reflection at a Plane Surface](#)

spherical aberration

[4.2: Spherical Aberration](#)

sun halo

[1.6: Refraction by a Prism](#)

T

telescope

[3.5: The Telescope](#)

Thick Lenses

[2.11: Thick Lenses](#)

Total Internal Reflection

[1.5: Reflection and Refraction](#)

W

wavelets

[1.3: Refraction at a Plane Surface](#)
