

Index

A

ampere (unit)
22.2: Force between two current-carrying wires
Ampere's Law
22.3: Ampere's Law
Angular acceleration
4.5: Circular motion
Angular momentum
12.3: Angular Momentum
angular velocity
4.5: Circular motion

B

Bernoulli's principle
15.3: Hydrodynamics
buoyancy
15.2: Buoyancy

C

conductors
16.1: Electric Charge
conservation of energy
8.3: Mechanical Energy and Conservation of Energy
conservative force
8.1: Conservative Forces

E

equation of continuity
15.3: Hydrodynamics

F

Faraday's Law
23.1: Faraday's Law
flux
17.1: Flux of the Electric Field
forces
5.4: Exploring Forces with PhET

G

galvanometer
21.6: Applications
Gaussian surface
17.2: Gauss' Law
generators
23.2: Induction in a Moving Conductor

H

Hall effect
21.5: The Hall Effect
Hydrodynamics
15.3: Hydrodynamics

I

Impulse
10.1: Momentum
induction
23.1: Faraday's Law
insulators
16.1: Electric Charge

J

jiffy (unit)
2.2: Units and dimensions

K

Kirchhoff's First Rule
20.2: Kirchhoff's rules
Kirchhoff's Second Rule
20.2: Kirchhoff's rules

L

laminar flow
15.3: Hydrodynamics
Length contraction
24.4: Length Contraction
Lenz's Law
23.1: Faraday's Law
longitudinal wave
14.1: Characteristics of a wave

M

Magnetic Dipole Moment
21.4: The Torque on a Current-Carrying Loop
mechanical energy
8.3: Mechanical Energy and Conservation of Energy
Moment of Inertia
11.6: Moment of Inertia
momentum
10.1: Momentum
Motional Emf
23.2: Induction in a Moving Conductor

P

Pascal (unit)
15.1: Pressure
Pascal's Principle
15.1: Pressure
period
4.5: Circular motion
PhET

5.4: Exploring Forces with PhET
15.4: Exploring Pressure with PhET

potential energy

8.2: Potential Energy

Pressure

15.1: Pressure
15.4: Exploring Pressure with PhET

S

Simulate Motion

4.6: Using Computation to Simulate Motion in Multiple Dimensions

Solenoids

22.4: Solenoids and Toroids

Special relativity

24: The Theory of Special Relativity

Statics

6.1: Statics

Stokes' Law

8.1: Conservative Forces

superposition principle

14.2: Mathematical Description of a Wave

T

Time dilation

24.3: Time Dilation

Toroids

22.4: Solenoids and Toroids

Torque

11.3: Torque

Transformers

23.5: Transformers

transverse wave

14.1: Characteristics of a wave

traveling wave

14.1: Characteristics of a wave

triboelectric series

16.1: Electric Charge

twin paradox

24.3: Time Dilation

U

uncertainty

2.3: Making Measurements

V

Visual Python

4.6: Using Computation to Simulate Motion in Multiple Dimensions

W

Wave equation

14.2: Mathematical Description of a Wave
