

## 12.4: PowerPoints

---

A full set of PowerPoint decks is provided for download below. All decks are tightly aligned to the modules in this course. Since they are openly licensed, you are welcome to retain, reuse, revise, remix, and redistribute as desired.

These PowerPoint files are accessible. If you do revise them, make sure to follow these [guidelines for creating accessible PowerPoints](#).

Use the following link to download all PowerPoint decks in a single .zip file (COMING SOON) or download each individual deck below:

- [Module 1: Types of Statistical Studies and Producing Data](#)
- [Module 2: Summarizing Data Graphically and Numerically](#)
- [Module 3: Examining Relationships: Quantitative Data](#)
- [Module 4: Nonlinear Models](#)
- [Module 5: Relationships in Categorical Data with Intro to Probability](#)
- [Module 6: Probability and Probability Distributions](#)
- [Module 7: Linking Probability to Statistical Inference](#)
- [Module 8: Inference for One Proportion](#)
- [Module 9: Inference for Two Proportions](#)
- [Module 10: Inference for Means](#)
- [Module 11: Chi-Square Tests](#)
