

Index

A

ANOVA

9.3: ANOVA

at least one

3.3: Multiplication Rule for Independent Events

B

Bernoulli trial

4.2: The Binomial Distribution

binomial probability distribution

4.2: The Binomial Distribution

7.2: Confidence Interval for a Proportion

box plots

2.1.1: Five Number Summary and Box Plots Part 1

C

central limit theorem

6.1: The Sampling Distribution of Means

Chebyshev's Theorem

2.4: Applications of Standard Deviation

cluster sampling

1.2: Sampling Techniques

coefficient of determination

11.1.2: Correlation Concepts Part 2

Comparing Two Population Proportions

10.3.1: Matched or Paired Samples Part 1

complement

3.1: Basics of Probability

conditional probability

3.1: Basics of Probability

3.4: General Multiplication Probability

Confidence Interval

7.4: Confidence Interval for Standard Deviation

confidence interval for standard deviation

7.4: Confidence Interval for Standard Deviation

contingency table

3.2: The Addition Rules of Probability

9.2: Test of Independence

continuous data

1.2: Sampling Techniques

critical value test

8.2: Hypothesis Testing of Single Proportion

D

direction of a relationship between the variables

11.1.1: Correlation Concepts Part 1

discrete data

1.2: Sampling Techniques

Distribution for the differences

10.3.1: Matched or Paired Samples Part 1

E

Empirical Rule

2.4: Applications of Standard Deviation

Equal variance

11.2: Correlation Hypothesis Test

event

3.1: Basics of Probability

expected value

4.1.2: Discrete Probability Distributions Part 2

F

Frequency Polygons

2.2.1: Histograms Part 1

G

General Multiplication Rule

3.4: General Multiplication Probability

goodness of fit

9.1: Goodness-of-Fit Test

H

Histograms

2.2.1: Histograms Part 1

hypothesis testing

8.1.1: Introduction to Hypothesis Testing Part 1

I

independent events

3.3: Multiplication Rule for Independent Events

9.2: Test of Independence

inferential statistics

7.1: Confidence Intervals Concepts

L

linear correlation coefficient

11.1.2: Correlation Concepts Part 2

11.2: Correlation Hypothesis Test

LINEAR REGRESSION MODEL

11.1.2: Correlation Concepts Part 2

M

matched samples

10.3.2: Matched or Paired Samples Part 2

mean

2.2.2: Histograms Part 2

4.1.2: Discrete Probability Distributions Part 2

mean of the sample proportion

6.2: The Sampling Distribution for Proportions

median

2.1.2: Five Number Summary and Box Plots Part 2

2.2.2: Histograms Part 2

2.3.1: Measures of Center and Spread Part 1

mode

2.2.2: Histograms Part 2

2.3.1: Measures of Center and Spread Part 1

multiplication rule

3.3: Multiplication Rule for Independent Events

N

normal distribution

5.2: Area Under Any Normal Curve

O

outcome

3.1: Basics of Probability

outliers

2.1.2: Five Number Summary and Box Plots Part 2

P

Paired Samples

10.3.2: Matched or Paired Samples Part 2

parameter

1.1: Statistics Vocabulary

Pareto chart

1.2: Sampling Techniques

Pooled Proportion

10.3.1: Matched or Paired Samples Part 1

population

1.1: Statistics Vocabulary

population mean

2.3.1: Measures of Center and Spread Part 1

Population Standard Deviation

2.3.2: Measures of Center and Spread Part 2

power of the test

8.1.2: Introduction to Hypothesis Testing Part 2

probability

1.1: Statistics Vocabulary

probability distribution function

4.1.1: Discrete Probability Distributions Part 1

5.2: Area Under Any Normal Curve

Q

Qualitative Data

1.2: Sampling Techniques

Quantitative Data

1.2: Sampling Techniques

quartiles

2.1.2: Five Number Summary and Box Plots Part 2

R

replacement

3.4: General Multiplication Probability

S

sample mean

2.3.1: Measures of Center and Spread Part 1

sample proportion

6.2: The Sampling Distribution for Proportions

sample space

3.1: Basics of Probability

sample Standard Deviation

2.3.2: Measures of Center and Spread Part 2

Sampling Bias

1.2: Sampling Techniques

sampling distribution

6.2: The Sampling Distribution for Proportions

Sampling Error

1.2: Sampling Techniques

sampling with replacement

1.2: Sampling Techniques

sampling without replacement

1.2: Sampling Techniques

scatter plot

11.1.1: Correlation Concepts Part 1

Skewed

2.1.1: Five Number Summary and Box Plots Part 1

2.2.2: Histograms Part 2

standard deviation

- [2.3.2: Measures of Center and Spread Part 2](#)
- [4.1.2: Discrete Probability Distributions Part 2](#)
- [7.4: Confidence Interval for Standard Deviation](#)

standard deviation of the sample proportion

- [6.2: The Sampling Distribution for Proportions](#)

standard normal distribution

- [5.1: The Standard Normal Distribution](#)

statistic

- [1.1: Statistics Vocabulary](#)

strength of a relationship between the variables

- [11.1.1: Correlation Concepts Part 1](#)

T

test statistic
