

CHAPTER OVERVIEW

9: Inference for Two Proportions

- 9.1: Why It Matters- Inference for Two Proportions
- 9.2: Introduction- Distribution of Differences in Sample Proportions
- 9.3: Distribution of Differences in Sample Proportions (1 of 5)
- 9.4: Distribution of Differences in Sample Proportions (2 of 5)
- 9.5: Distribution of Differences in Sample Proportions (3 of 5)
- 9.6: Distribution of Differences in Sample Proportions (4 of 5)
- 9.7: Distribution of Differences in Sample Proportions (5 of 5)
- 9.8: Introduction- Estimate the Difference Between Population Proportions
- 9.9: Estimate the Difference between Population Proportions (1 of 3)
- 9.10: Estimate the Difference between Population Proportions (2 of 3)
- 9.11: Estimate the Difference between Population Proportions (3 of 3)
- 9.12: Introduction- Hypothesis Test for Difference in Two Population Proportions
- 9.13: Hypothesis Test for Difference in Two Population Proportions (1 of 6)
- 9.14: Hypothesis Test for Difference in Two Population Proportions (2 of 6)
- 9.15: Hypothesis Test for Difference in Two Population Proportions (3 of 6)
- 9.16: Hypothesis Test for Difference in Two Population Proportions (4 of 6)
- 9.17: Hypothesis Test for Difference in Two Population Proportions (5 of 6)
- 9.18: Hypothesis Test for Difference in Two Population Proportions (6 of 6)
- 9.19: Putting It Together- Inference for Two Proportions
- 9.20: Assignment- A Statistical Investigation using Software
