A

affirmative action
1.6: Correlation and Regression Analysis

alternative hypothesis
1.5: Significance of Statistical Inference Methods

C

central limit theorem
1.5: Significance of Statistical Inference Methods

Central Tendencies
1.2: Descriptive Statistics

Central Tendency
1.2: Descriptive Statistics

coefficient of determination
1.6: Correlation and Regression Analysis

Community Cultural Wealth
1.2: Descriptive Statistics

community empowerment
1.7: Case Studies

confidence intervals
1.5: Significance of Statistical Inference Methods

continuous probability distribution
1.3: Probability

correlation analysis
1.6: Correlation and Regression Analysis

correlation causation
1.6: Correlation and Regression Analysis

correlation coefficient
1.6: Correlation and Regression Analysis

D

Data Analytics
1.2: Descriptive Statistics

data classification
1.1: An Overview of Statistics

Data Disaggregation Importance
1.2: Descriptive Statistics

data diving
1.1: An Overview of Statistics

data literacy
1.1: An Overview of Statistics

Data Organization
1.2: Descriptive Statistics

Data Set Analysis
1.2: Descriptive Statistics

Data Visualization
1.2: Descriptive Statistics

demographic profile
1.7: Case Studies

dependent independent variables
1.6: Correlation and Regression Analysis

descriptive statistics
1.1: An Overview of Statistics
1.2: Descriptive Statistics
1.3: Probability
1.5: Significance of Statistical Inference Methods

Disaggregation
1.2: Descriptive Statistics

discrete probability distribution
1.3: Probability

diversity
1.6: Correlation and Regression Analysis

E

econometrics
1.5: Significance of Statistical Inference Methods

educational equity
1.6: Correlation and Regression Analysis

empirical probability
1.3: Probability

equitable healthcare
1.6: Correlation and Regression Analysis

Equity
1.1: An Overview of Statistics
1.2: Descriptive Statistics

Equity Gaps
1.2: Descriptive Statistics

equity in hypothesis testing
1.5: Significance of Statistical Inference Methods

equity in statistics
1.5: Significance of Statistical Inference Methods

equity lens
1.3: Probability

F

financial risk tolerance
1.5: Significance of Statistical Inference Methods

frequency distribution
1.2: Descriptive Statistics

G

Gender
1.2: Descriptive Statistics

H

health care
1.1: An Overview of Statistics

health disparities
1.1: An Overview of Statistics
1.2: Descriptive Statistics
1.7: Case Studies

health equity
1.1: An Overview of Statistics

healthcare accessibility
1.7: Case Studies

healthcare disparities
1.6: Correlation and Regression Analysis

healthcare diversity
1.6: Correlation and Regression Analysis

healthcare workforce diversity
1.6: Correlation and Regression Analysis

higher education admissions
1.6: Correlation and Regression Analysis

holistic model
1.7: Case Studies

hypothesis testing
1.5: Significance of Statistical Inference Methods

I

incarcerated fathers
1.7: Case Studies

Income Inequality
1.2: Descriptive Statistics

inferential analysis
1.6: Correlation and Regression Analysis

inferential statistics

1.1: An Overview of Statistics
1.2: Descriptive Statistics
1.3: Probability
1.5: Significance of Statistical Inference Methods

Interquartile Range

1.2: Descriptive Statistics

L

levels of measurement
1.1: An Overview of Statistics

likelihood
1.3: Probability

M

malnutrition
1.3: Probability

Massachusetts
1.7: Case Studies

Measures of Spread
1.2: Descriptive Statistics

mental health
1.6: Correlation and Regression Analysis

microaggressions
1.6: Correlation and Regression Analysis

mindfulness
1.1: An Overview of Statistics

N

normal curve
1.3: Probability

normal distribution
1.2: Descriptive Statistics
1.3: Probability

null hypothesis
1.5: Significance of Statistical Inference Methods

P

performance measurement
1.7: Case Studies

population health
1.1: An Overview of Statistics

PRASAD Project
1.7: Case Studies

prediction errors
1.6: Correlation and Regression Analysis

probability
1.3: Probability
1.5: Significance of Statistical Inference Methods

probability distributions
1.3: Probability

probability models
1.3: Probability

public health
1.1: An Overview of Statistics

Q
