

CHAPTER OVERVIEW

Chapter 7: The General Linear Model

Learning Objectives

After reading this chapter, you should be able to:

- describe the concept of the general linear model and provide examples of its application
- describe the concept of linear regression and apply it to a dataset.

[7.1: General Linear Model](#)

[7.2: Modelling Continuous Relationships](#)

[7.3: Comparing Means](#)

[7.4: Working with Categorical Outcomes](#)

[7.5: Introduction to Multivariate Statistical Modelling](#)
