    - [6.3: Accommodating Human Limitations](#) - [CC BY-NC 4.0](#)
    - [6.4: Correcting for Other Factors](#) - [CC BY-NC 4.0](#)
    - [6.5: Suggested readings and videos](#) - [CC BY-NC 4.0](#)
  - [7: Data Visualization with R](#) - [CC BY-NC 4.0](#)
    - [7.1: The Grammar of Graphics](#) - [CC BY-NC 4.0](#)
    - [7.2: Getting Started](#) - [CC BY-NC 4.0](#)

- 7.3: Let's Think Through a Visualization - CC BY-NC 4.0
- 7.4: Plotting the Distribution of a Single Variable - CC BY-NC 4.0
- 7.5: Plots with Two Variables - CC BY-NC 4.0
- 7.6: Creating a More Complex Plot - CC BY-NC 4.0
- 7.7: Additional Reading and Resources - CC BY-NC 4.0
- 8: Fitting Models to Data - CC BY-NC 4.0
  - 8.1: Appendix - CC BY-NC 4.0
  - 8.2: What Is a Model? - CC BY-NC 4.0
  - 8.3: Statistical Modeling- An Example - CC BY-NC 4.0
  - 8.4: What Makes a Model "Good"? - CC BY-NC 4.0
  - 8.5: Can a Model Be Too Good? - CC BY-NC 4.0
  - 8.6: The Simplest Model- The Mean - CC BY-NC 4.0
  - 8.7: The Mode - CC BY-NC 4.0
  - 8.8: Variability- How Well Does the Mean Fit the Data? - CC BY-NC 4.0
  - 8.9: 8.8 Using Simulations to Understand Statistics - CC BY-NC 4.0
  - 8.10: Z-scores - CC BY-NC 4.0
- 9: Fitting Simple Models with R - CC BY-NC 4.0
  - 9.1: Mean - CC BY-NC 4.0
  - 9.2: Median - CC BY-NC 4.0
  - 9.3: Mode - CC BY-NC 4.0
  - 9.4: Variability - CC BY-NC 4.0
  - 9.5: Z-scores - CC BY-NC 4.0
- 10: Probability - CC BY-NC 4.0
  - 10.1: What Do Probabilities Mean? - Undeclared
  - 10.2: Suggested Readings - CC BY-NC 4.0
  - 10.3: Appendix - CC BY-NC 4.0
  - 10.4: What Is Probability? - Undeclared
  - 10.5: How Do We Determine Probabilities? - Undeclared
  - 10.6: Probability Distributions - CC BY-NC 4.0
  - 10.7: Conditional Probability - CC BY-NC 4.0
  - 10.8: Computing Conditional Probabilities from Data - CC BY-NC 4.0
  - 10.9: Independence - CC BY-NC 4.0
  - 10.10: Reversing a Conditional Probability- Bayes' Rule - CC BY-NC 4.0
  - 10.11: Learning from Data - CC BY-NC 4.0
  - 10.12: Odds and Odds Ratios - CC BY-NC 4.0
- 11: Probability in R - CC BY-NC 4.0
  - 11.1: Basic Probability Calculations - CC BY-NC 4.0
    - 11.1.1: Empirical Frequency (Section 10.2.2) - CC BY-NC 4.0
  - 11.2: Conditional Probability (Section 10.4) - CC BY-NC 4.0
- 12: Sampling - CC BY-NC 4.0
  - 12.1: How Do We Sample? - Undeclared
  - 12.2: Sampling Error - CC BY-NC 4.0
  - 12.3: Standard Error of the Mean - CC BY-NC 4.0
  - 12.4: The Central Limit Theorem - CC BY-NC 4.0
  - 12.5: Confidence Intervals - CC BY-NC 4.0
  - 12.6: Suggested Readings - CC BY-NC 4.0
- 13: Sampling in R - CC BY-NC 4.0
  - 13.1: Sampling Error (Section @ref{samplingerror}) - CC BY-NC 4.0
  - 13.2: Central Limit Theorem - CC BY-NC 4.0
  - 13.3: Confidence Intervals (Section @ref{confidence-intervals}) - CC BY-NC 4.0
- 14: Resampling and Simulation - CC BY-NC 4.0
  - 14.1: Monte Carlo Simulation - CC BY-NC 4.0
  - 14.2: Randomness in Statistics - CC BY-NC 4.0
  - 14.3: Generating Random Numbers - CC BY-NC 4.0
  - 14.4: Using Monte Carlo Simulation - CC BY-NC 4.0
  - 14.5: Using Simulation for Statistics- The Bootstrap - CC BY-NC 4.0
  - 14.6: Suggested Readings - CC BY-NC 4.0
- 15: Resampling and Simulation in R - CC BY-NC 4.0
  - 15.1: Generating Random Samples (Section @ref{generating-random-numbers}) - CC BY-NC 4.0
  - 15.2: Simulating the Maximum Finishing Time - CC BY-NC 4.0
  - 15.3: The Bootstrap - CC BY-NC 4.0
- 16: Hypothesis Testing - CC BY-NC 4.0
  - 16.1: Null Hypothesis Statistical Testing (NHST) - CC BY-NC 4.0
  - 16.2: Null Hypothesis Statistical Testing- An Example - CC BY-NC 4.0
  - 16.3: The Process of Null Hypothesis Testing - CC BY-NC 4.0
  - 16.4: NHST in a Modern Context- Multiple Testing - CC BY-NC 4.0
  - 16.5: Suggested Readings - CC BY-NC 4.0
- 17: Hypothesis Testing in R - CC BY-NC 4.0
  - 17.1: Simple Example- Coin-flipping (Section 16.3.5.1) - CC BY-NC 4.0
  - 17.2: Simulating p-values - CC BY-NC 4.0
- 18: Quantifying Effects and Designing Studies - CC BY-NC 4.0
  - 18.1: Confidence Intervals - CC BY-NC 4.0
  - 18.2: Effect Sizes - CC BY-NC 4.0
  - 18.3: Statistical Power - CC BY-NC 4.0
  - 18.4: Suggested Readings - CC BY-NC 4.0
- 19: Statistical Power in R - CC BY-NC 4.0
  - 19.1: Power Analysis - CC BY-NC 4.0
  - 19.2: Power Curves - CC BY-NC 4.0

- 19.3: Simulating Statistical Power - CC BY-NC 4.0
- 20: Bayesian Statistics - CC BY-NC 4.0
  - 20.1: Generative Models - CC BY-NC 4.0
  - 20.2: Bayes' Theorem and Inverse Inference - CC BY-NC 4.0
  - 20.3: Doing Bayesian Estimation - CC BY-NC 4.0
  - 20.4: Estimating Posterior Distributions - CC BY-NC 4.0
  - 20.5: Choosing a Prior - CC BY-NC 4.0
  - 20.6: Bayesian Hypothesis Testing - CC BY-NC 4.0
  - 20.7: Suggested Readings - CC BY-NC 4.0
  - 20.8: Appendix - CC BY-NC 4.0
- 21: Bayesian Statistics in R - CC BY-NC 4.0
  - 21.1: A Simple Example (Section 20.3) - CC BY-NC 4.0
  - 21.2: Estimating Posterior Distributions (Section 20.4) - CC BY-NC 4.0
  - 21.3: Bayes Factors (Section 20.6.1) - CC BY-NC 4.0
- 22: Modeling Categorical Relationships - CC BY-NC 4.0
  - 22.1: Example- Candy Colors - CC BY-NC 4.0
  - 22.2: Pearson's chi-squared Test - CC BY-NC 4.0
  - 22.3: Contingency Tables and the Two-way Test - CC BY-NC 4.0
  - 22.4: Standardized Residuals - CC BY-NC 4.0
  - 22.5: Odds Ratios - CC BY-NC 4.0
  - 22.6: Bayes Factor - CC BY-NC 4.0
  - 22.7: Categorical Analysis Beyond the 2 X 2 Table - CC BY-NC 4.0
  - 22.8: Beware of Simpson's Paradox - CC BY-NC 4.0
  - 22.9: Additional Readings - CC BY-NC 4.0
- 23: Modeling Categorical Relationships in R - CC BY-NC 4.0
- 24: Modeling Continuous Relationships - CC BY-NC 4.0
  - 24.1: An Example- Hate Crimes and Income Inequality - CC BY-NC 4.0
  - 24.2: Is income Inequality Related to Hate Crimes? - Undeclared
  - 24.3: Covariance and Correlation - CC BY-NC 4.0
  - 24.4: Correlation and Causation - CC BY-NC 4.0
  - 24.5: Suggested Readings - CC BY-NC 4.0
  - 24.6: Appendix - CC BY-NC 4.0
- 25: Modeling Continuous Relationships in R - CC BY-NC 4.0
  - 25.1: Computing Covariance and Correlation (Section 24.3) - CC BY-NC 4.0
  - 25.2: Hate Crime Example - CC BY-NC 4.0
  - 25.3: Robust Correlations (24.3.2) - CC BY-NC 4.0
- 26: The General Linear Model - CC BY-NC 4.0
  - 26.1: Linear Regression - CC BY-NC 4.0
  - 26.2: Fitting More Complex Models - CC BY-NC 4.0
  - 26.3: Interactions Between Variables - CC BY-NC 4.0
  - 26.4: Beyond Linear Predictors and Outcomes - CC BY-NC 4.0
  - 26.5: Criticizing Our Model and Checking Assumptions - CC BY-NC 4.0
  - 26.6: What Does "Predict" Really Mean? - Undeclared
  - 26.7: Suggested Readings - CC BY-NC 4.0
  - 26.8: Appendix - CC BY-NC 4.0
- 27: The General Linear Model in R - CC BY-NC 4.0
  - 27.1: Linear Regression (Section 26.1) - CC BY-NC 4.0
  - 27.2: Model Criticism and Diagnostics (Section 26.5) - CC BY-NC 4.0
  - 27.3: Examples of Problematic Model Fit - CC BY-NC 4.0
  - 27.4: Extending Regression to Binary Outcomes. - CC BY-NC 4.0
  - 27.5: Cross-validation (Section 26.6.1) - CC BY-NC 4.0
- 28: Comparing Means - CC BY-NC 4.0
  - 28.1: Testing the Value of a Single Mean - CC BY-NC 4.0
  - 28.2: Comparing Two Means - CC BY-NC 4.0
  - 28.3: The t-test as a Linear Model - CC BY-NC 4.0
  - 28.4: Bayes Factor for Mean Differences - CC BY-NC 4.0
  - 28.5: Comparing Paired Observations - CC BY-NC 4.0
  - 28.6: Comparing More Than Two Means - CC BY-NC 4.0
  - 28.7: Appendix - CC BY-NC 4.0
- 29: Comparing Means in R - CC BY-NC 4.0
  - 29.1: Testing the Value of a Single Mean (Section 28.1) - CC BY-NC 4.0
  - 29.2: Comparing Two Means (Section 28.2) - CC BY-NC 4.0
  - 29.3: The t-test as a Linear Model (Section 28.3) - CC BY-NC 4.0
  - 29.4: Comparing Paired Observations (Section 28.5) - CC BY-NC 4.0
  - 29.5: Analysis of Variance (Section 28.6.1) - CC BY-NC 4.0
- 30: Practical statistical modeling - CC BY-NC 4.0
  - 30.1: The Process of Statistical Modeling - CC BY-NC 4.0
- 31: Practical Statistical Modeling in R - CC BY-NC 4.0
- 32: Doing Reproducible Research - CC BY-NC 4.0
  - 32.1: How We Think Science Should Work - CC BY-NC 4.0

- 32.2: How Science (Sometimes) Actually Works - *CC BY-NC 4.0*
- 32.3: The Reproducibility Crisis in Science - *CC BY-NC 4.0*
- 32.4: Questionable Research Practices - *CC BY-NC 4.0*
- 32.5: Doing Reproducible Research - *CC BY-NC 4.0*
- 32.6: Doing Reproducible Data Analysis - *CC BY-NC 4.0*
- 32.7: Conclusion- Doing Better Science - *CC BY-NC 4.0*
- 32.8: Suggested Readings - *CC BY-NC 4.0*
- 33: References - *CC BY-NC 4.0*
- Back Matter - *CC BY-NC 4.0*
